

Staffing Services

The Engagement

MaxMetrics consultants can be engaged as consultants or through out-sourcing arrangements (interim positions)

Each professional has more than 10 years experience with business intelligence, analytics and performance management. They can add immediate benefit through Consulting, Staffing Services, Seminars and Workshops

- Facilitate team building and project planning for implementing complex, strategic, multi-site, multi-architecture, distributed team engagements
- Provide skills and competency development for specific domain topics such as project and program management and architecture planning
- Manage crisis situations, rescue troubled projects, or manage risks and uncertainties in new technology implementations
- Train, coach and mentor project teams
- Evaluate current business intelligence strategies or organizations and recommend ways to increase business value and reduce costs
- Provide advice and guidance on modernizing business intelligence and analytical architectures and practices
- Add senior staff to a project team

Seminars

conference sessions

workshops

Workshop titles

"Increasing business benefit or reducing total cost of ownership through implementing enterprise business intelligence & analytical solutions"

"Implementing a business intelligence and analytical competency centre"

"Creating a compelling business intelligence and analytical strategy"
